

NoMorePly[®] PCD Saw Blade with Reducer

Designed for fast accurate cutting of Fibre Cement and MGO Boards. Diamond tipped teeth which increase blade life and ensure a clean cut every time. Designed to reduce dust.

Blade Type: Polycrystalline Diamond (PCD)

Dry/Wet: Dry Use

Recommended for: Table Saws, Mitre Saws and Portable Saws

Sheet Thickness: Cuts up to 30mm Fibre Cement Boards

Cut Finish: Medium/Course

STS Product SKU: 6318 & 6316

Measurements

SKU Code	Type
6318	184mm/30mm
6316	160mm/20mm

Safety First

Wherever possible, use a dust extractor with a suitable filter. Always use in a well-ventilated area. Set the cutting depth to 5mm more than the material thickness. Suitable for straight cuts only.
