

Specification	Value
Material	Primed MR MDF
Profile	45 x 14.5 mm
Length	1.2 m
Finish	Factory Primed
Use	Decorative wall panelling & joinery

## Product Description

Manufactured from high-quality moisture resistant MDF with a smooth factory-applied primer ready for finishing. Designed for traditional and contemporary wall panelling, cabinetry and interior joinery.

## Features & Benefits

- Moisture Resistant MDF
- Factory primed
- Easy to cut, mitre and machine
- Stable construction
- Excellent paint finish
- Suitable for residential & commercial interiors

## Typical Applications

Decorative wall panelling, shaker walls, feature walls, cabinetry, reception areas, hallways and commercial fit-outs.

## Installation

Prepare clean, dry surfaces. Cut accurately, bond using quality grab adhesive and fix mechanically where required. Fill, sand and apply suitable interior paint system.

## Storage & Maintenance

Store flat in dry conditions. Protect from moisture. Clean with a damp cloth only. Repaint when required.
