

UG800

SMART HOME GATEWAY

About this product

The SALUS UG800 Smart Home Gateway is the central hub of the SALUS Smart Home system, allowing up to 200 devices to connect and work together seamlessly. It creates a unified ecosystem where thermostats, smart plugs, relays, and other devices optimize comfort, energy efficiency, and convenience. Easy to set up and manage, the UG800 ensures smooth communication across heating, lighting, and security systems. Compact and discreet, it fits effortlessly into any home while delivering reliable performance, including up to 100 Mbps Ethernet connectivity for stable, real-time control through the SALUS Smart Home app.

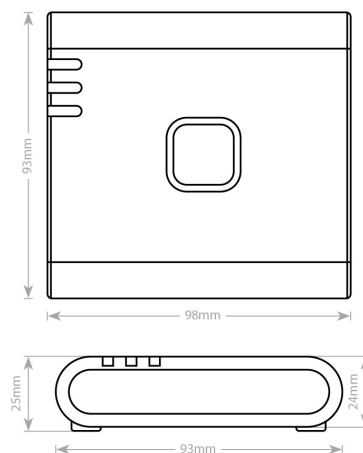

Features

- Simple & Quick setup from Smart Home App
- Connects up to 200 devices
- Full Zigbee 3.0 compliance
- 10/100Mbps Ethernet connection for stable internet connection
- 5 Year Warranty

Specification
